RAID HAD BUT LITTLE EFFECT

Saloons Still Doing Business at Mahanomen, Minn.

SERIOUS TROUBLE IS FEARED

Further Raids May Be Made and in Such Event Federal Officers May Meet With Determined Resistance on the Part of the Saloon Element. Little Village of Ogema Blamed for All the Trouble.

Crookston, Minn., Oct. 9.—The lid is not on in Mahanomen county despite the raid made by the federal deputies on Wednesday. None of the four saloons in the village of Mahanomen are closed.

One of the places at least in Waukon is running, and it is asserted that a real dry man is not permitted to suffer in Ogema.

When William E. Johnson and his nine aides, as representatives of the United States, destroyed the liquor found in the saloons they did not arrest or molest the proprietors. The status of the saloon men is the same as it was before the raid. The only effect so far as they are concerned is a financial loss, and in one case in Mahanomen that amounted to \$2,300.

But all had reserve supplies that were not found and destroyed by the federal raiders. All have brought out their reserve and are doing business as before.

Assistant United States Attorney Oakley of St. Paul, who is looking after the interests of the federal deputies under arrest, says that the places will be raided again.

The wholesale liquor dealers and brewers will not ship any more to saloons on the reservation. The dealers will have to haul in their supplies by wagons.

A few more raids, it is figured, will tire out the saloon men and stop the liquor traffic in the Indian country.

One thing seems certain: The agents of the United States Indian service could not pull off another raid in Mahanomen county without stirring up serious trouble. The citizens and officials in the towns affected are in sympathy with the liquor dealers.

But it is scarcely to be expected that another raid could be made without violence.

The people of the other towns of White Earth reservation are inclined to blame Ogema for all the trouble. There are four saloons in that little village. It is claimed the places have been run in open defiance of the state law.

Ogema is only five miles from the White Earth agency, and attracted the attention of the officials to such an extent that all saloons in the country have suffered.

As the citizens of some other towns do not uphold conditions in Ogema, they do not want to be classed with that village. They feel that they are being singled out unjustly, and they resent it.

INDIAN BUREAU TO ASSIST

Will Support Prosecution Against Iowa Officials.

Washington, Oct. 9.—Indian Commissioner Valentine asserts that his bureau will lend all possible administrative support in the prosecution of several officials of Marshalltown, Ia., who were indicted Thursday for conspiring to interfere with a special officer of the Indian service while the latter was investigating alleged sales of liquor to Indians from the Tama reservation.

Recognizing the evils which follow the sale of liquor to the Indians, the bureau of Indian affairs, through its special officers, has been conducting a vigorous crusade to wipe out the practice and its campaign has been very effective both under the federal and state law.

LOOT SOUTH DAKOTA BANK

Robbers Get Away With Seven Thousand Dollars.

Aberdeen, S. D., Oct. 9.—The Peever state bank in the town of Peever, Roberts county, was robbed of \$7,000 by robbers who blew open the vault and escaped on a handcar. The money was in currency for the purchase of grain.

Fishermen and Gendarmes Clash.

Douranenez, France, Oct. 9.—Six thousand fishermen, while making a demonstration in behalf of the strike in the sardine industry, came into collision with the gendarmes, upon whom they showered stones. The gendarmes charged the manifestants, injuring fifteen of them.

VISITS BIG TREE GROVE

President Taft Sees One of the World's Wonders.

Glacier Point, Cal., Oct. 9.—President Taft has arrived here. The drive from Wawona, where he spent the forenoon visiting the Mariposa big tree groves, was over twenty-six miles of mountain road and the president was ready for bed immediately after dinner.

The president was photographed at the base of the "Grizzly Giant," the biggest and oldest tree in the world, and he was snapped in the stage as it passed through the trunk of the Wawona, one of the largest of the forest monarchs.

The president was continually on foot in the grove and stood for minutes at a time in contemplation of the mighty trees.

The stage ride from Wawona to Glacier carried the president to an elevation of 7,700 feet.

Guarded by cavalymen, he slept at an elevation of 7,000 feet in a little hotel here.

With the setting of the sun the weather became cold and a cheerful fire gave a welcome greeting to the presidential party.

SEVENTEEN MEN KILLED IN COLLISION

Ten Others Severely Injured Near Topeka, Kan.

Topeka, Kan., Oct. 9.—Seventeen persons were killed and ten severely injured in a collision between a freight train and a construction train on the Atchison, Topeka and Santa Fe railroad near here.

Among the dead are eleven Mexicans.

The injured are all Mexicans and are at the Atchison, Topeka and Santa Fe hospital. It is believed some of them are fatally injured.

The work train was backing into Topeka with fifty Mexicans riding on the flat cars. As the train was rounding a curve, the northbound freight crashed into it.

Engineer Edward Ash and Fireman Joseph Corey of the freight train jumped as soon as the airbrakes could be set. The engine on the freight ran over the four flat cars comprising the work train and almost a score of men were pinned down and it was several hours before they were extricated.

It is said the wreck was caused by the crew of the work train disregarding orders.

HUNTERS IN GRAVE PERIL

Rescued From Bog After Being Afloat Three Days.

Duluth, Oct. 9.—A searching party saved the lives of Thorwald F. Behrens, twenty-three years old, and Joseph Symington, thirty years old, of Duluth.

They were out duck hunting on a small lake near McGregor, and were marooned on a floating bog, where starvation confronted them on one hand and death by drowning on the other. They were three days without food, and they could not swim.

WILL ATTEND THE MEETING

Governor of Texas Will Be Present When Taft and Diaz Meet.

El Paso, Tex., Oct. 9.—After refusing to be present at the meeting of Presidents Taft and Diaz here next week because President Taft had not included the state capitol in his itinerary, Governor T. M. Campbell telegraphed the committee that he would be present, arriving the day before the meeting. Much feeling had been aroused because of the governor's refusal to take the part assigned him.

Throws Bomb Among Dancers.

Rienke, Germany, Oct. 9.—During a dance given in this village following a peasant wedding, an unknown man, thoroughly disguised, suddenly appeared on the scene and from the doorway threw a bomb among the dancers. Eight persons were severely wounded and several others slightly injured by the explosion. It is presumed the man acted through motives of jealousy. He made his escape.

Fire Threatened Town.

Burnside, Ky., Oct. 9.—Fire which threatened destruction of a large part of this town destroyed a hotel, several stores and other small buildings before being extinguished. The loss is estimated at \$75,000.

DETROIT LOSES TO PITTSBURG

Pirates Win Opening Game of Championship Series.

TOMMY LEACH SAVES GAME

Makes Sensational Catch of a Terrific Drive From Cobb's Bat When Two Men Are on Bases—Manager Clarke the First to Solve Mullin's Pitching, Batting a Home Run, Which Took the Heart Out of the Detroiters.

Pittsburg, Oct. 9.—Pittsburg, the National league champions, won the first game of the world's championship series by the score of 4 to 1, at Forbes field. After the early innings Detroit was outclassed in every department of the game, although in the first three sessions the American leaguers outplayed their opponents.

An immense crowd—29,265 paid admissions—a new record for attendance in the world's series game, witnessed the exciting battle. Every available inch of seating space at the immense amphitheater was filled and when Umpire Johnstone called "play ball" there did not appear to be room for one more. The great majority of the spectators were Pittsburg supporters, but a large delegation of Detroit enthusiasts made a creditable showing with plenty of noise in the early innings.

Manager Fred Clarke and Tommy Leach were the stars of the Pittsburg aggregation. It was Clarke who broke the apparently impregnable wall of Mullin's wonderful pitching with a smashing home run into the right field bleachers in the fourth inning and tied the score. This smash appeared to take all the heart out of the Detroit team and scoring was comparatively easy for Pittsburg after that.

Leach Makes Sensational Catch.

Leach's sensational catch of a terrific drive from "Ty" Cobb's trusty bat with two Detroit men on bases in the seventh inning saved the game. Leach was playing deep for Cobb, but this drive went almost to the center field stand and it was only after a hard backward run the diminutive star was able to make the thrilling catch.

Both George Mullin and Charles Adams pitched admirably and Mullin allowed only five hits, while the Pittsburg youngster was hit safely six times. Adams was unsteady in the opening round when he gave two bases on balls and allowed two hits. After that he steadied and Detroit was not able to get more than one hit in an inning.

Mullin was a complete enigma to the locals during the first three innings, when he did not allow a hit and gave but one base on balls. He had retired two Pittsburg men in the fourth when Clarke made his corking home run. Deleahanty made a ridiculous error at the beginning of the fifth inning and Abstein made three bases on it. This was followed by a two-bagger by Gibson and another error by Bush gave Pittsburg two runs and the game. It was not Mullin's fault, however, as he pitched a remarkable game throughout.

The total receipts of the game were \$40,271.50, which will be divided as follows: National commission, \$4,027.15; players, \$21,746.61; each club owner, \$7,248.87.

WILLIE BOY FIGHTS POSSE

Indian Desperado Has the Better of the Encounter.

San Bernardino, Cal., Oct. 9.—Willie Boy, the fugitive Pute Indian who killed his sweetheart when she could no longer keep up in their flight after slaying her father, has engaged Sheriff Ralph's posse in a rifle battle at an isolated place on the desert, known as Mosquito wells. Charles Roche, a deputy sheriff of Banning, was wounded.

Willie Boy dropped three of the deputies' horses with a rain of bullets that drove the men to cover. The sheriff's men had small chance against the well intrenched and well armed desperado. Another fight is expected.

Not a Candidate for Congress.

Denver, Oct. 9.—Ruth Bryan Leavitt will not be a congressional representative from Colorado, nor is she going on the lecture platform. She declared she had no aspiration to enter the political game. Incidentally she coldly turned down an offer from a Chicago Lyceum lecture bureau for an income reaching several figures weekly.

THREE KILLED IN MONTANA WRECK

Extra Freight Sideswipes Regular Bridge Train.

Butte, Mont., Oct. 9.—Three men were killed in a wreck on the Northern Pacific at Silesia, on the Red Lodge branch, an extra freight train "sideswiping" the regular bridge train. The dead are:

Martin, fireman of the extra; E. F. McKeeney, head brakeman of the extra; Teeters, engineer of the extra. All lived, in Livingston, Mont.

The crew of the bridge train escaped by jumping. The engines and fifteen coal cars were piled in a tangled mass of wreckage, which tied up traffic over night, and beneath which lay the bodies of the victims.

Teeters was not killed instantly, but death ensued soon after he had been taken to the hospital.

The responsibility for the disaster has not been fixed.

Fapke Defeats Lewis.

Pittsburg, Oct. 9.—Billy Papke, the "Illinois Thunderbolt," easily defeated Willie Lewis, the New York fighter, according to the public verdict, before the National Sporting club. Both men were standing at the end of the sixth round, but Lewis was almost out. Five thousand witnessed the go.

WEEKLY REVIEW OF TRADE

Favorable Reports Are the Rule in Nearly All Lines.

New York, Oct. 9.—Bradstreet's review of trade says favorable reports are the rule in nearly all lines of trade and industry, with conservatism, bred by high prices of raw and manufactured products and full order books of manufactures, the only apparent bars to an even wider distribution in most wholesale lines. Wholesale trade in staple lines is good beyond question, even the South, which faces a short yield of cotton, showing a better and more cheerful tone because of the high price offered for its leading staple at a period of nearly record crop movement. On the other hand, cotton manufacturers here, at the South and abroad are discussing curtailment of output in an effort to readjust prices of goods, which are strong and tending upward to the advanced cost of the raw material, which is 50 per cent higher than a year ago. Shortages of cars in special lines are more in evidence in transportation than for two years past. In the leading industries fuller order books are the rule. Iron and steel are active, pig iron production is at a record maximum and the railroads are buying rails, material and rolling stock freely.

LAST DAY OF FESTIVITIES

Troy the Scene of Conclusion of Hudson-Fulton Celebration.

Albany, N. Y., Oct. 9.—Albany added another round of festivities to the waning Hudson-Fulton celebration. The Half Moon, with her Dutch crew,

the Clermont, with her jolly party of impersonators aboard, and their naval escorts will move on to Troy for the concluding day of the celebration. Albany's eventual day closed with a banquet attended by Governor Hughes, Assistant Secretary of War Robert Shaw Oliver, who is a native Albanian, General Leonard Wood, naval officers and other official guests.

WEATHER FORECAST

Partly cloudy, with rain east portion tonight and Sunday. Cooler tonight and east portion Sunday. Frost west portion tonight.

Editor Welles has again assumed charge of the Sauk Centre Herald after a six months vacation.

Ruth Bryan Leavitt will become a candidate for congress from the First district of Colorado, with the consent of her father. It seems to run in the Bryan family.

Minneapolis feels easier since it is announced that the provisions of the Chippewa treaty in regard to saloons will not be enforced in that city even should they be included in the territory.

The "near-beer" manufacturers in the south where prohibition has taken a hold, are to be made to pay a government tax. If the article is near enough the beer line to make it palatable, there can scarcely be any objection to the tax.

In order to meet the payroll and maintain it, the city of Chicago has cut the salary of all city officers 10 per cent. Mayor Busse's \$18,000 salary is included as well as the lowest paid laborer. The pay roll last year reached the enormous sum of \$15,000,000.

W. T. Tourtellotte has been selected by E. E. McCrae, supervisor of the census of the Sixth district, as his secretary in the work. Mr. Tourtellotte is a resident of Little Falls and is well equipped to fill the position to which he has been appointed, and the selection is generally approved.

A morrison county farmer who ordered a wife through one of the mail order routes and has been waiting at the depot in Little Falls for a week to greet her when she steps from the train, has decided that he has been deceived and has returned to his farm where he mourns in solitude the fickleness of woman and the loss of \$40 sent as railroad fare.

Since August 3d, 4,800 wagon loads of potatoes have been weighed on the city scales at Elk River and marketed there. The average price has been 40 cents per bushel for the 250,000 bushels of tubers, which means that \$100,000 has been paid to the farmers adjacent to that town within the past two months. Looks like potatoes were as good as ready money to the farmer.

There are probably many men in Brainerd who intend to contribute to the Johnson memorial fund, and as it is intended to close the subscription list by November 1st, it is hoped that all who have this idea in mind, will hand their dollar to The Dispatch as early as possible, in order that this city may get credit for contributing freely to the fund. The matter is entirely in the nature of a free will offering and no canvassing will be done except through the newspapers and that will be merely to keep the matter before those who otherwise might not be apprased of the movement.

The St. Cloud Times says "next year will witness the prtiest republican row since the Collins-Dunn upheaval." The Times gives voice to what it would like to see rather than what is liable to happen. The democratic brethren know full well that their only hope of success is a divided and demoralized front on the part of the republicans and if their efforts will avail, that will happen. Experience, usually, is a good teacher and if the party has not profited with what has come to pass in the past two or three elections, the republican party of Minnesota deserves what the democrats stand ready to hand out to them.

Tuesday evening, Oct. 12th, the Royal Neighbors of Pine Camp, No. 1730, will give a card party at their hall in the Cale block. "500" will be played and lunch will be served. Tickets 15c. 102-109w1

The residence of John Gaffney, 510

fire Friday night to the extent of
\$500 or \$600, and the clothing of the
family was nearly all destroyed by a
blaze which apparently originated
from a lamp in the bed room upstairs.
There is \$1,000 insurance on the

The family were all away from the
home when the fire was discovered,
Mr. and Mrs. Gaffney being in South-
east Brainerd spending the evening,
and the son and daughter away with
friends.

The fire was discovered by some
boys on their way home from a foot
ball practice and they turned in an
alarm. The fireboys responded very
promptly and soon had the fire under
control. The roof of the house and
one room upstairs are wrecks and the
kitchen part is badly scorched. The

where the fire started and was entire-
ly destroyed. The insurance on the
house is in Smith Bros' agency and

STOOD IN WATER FOR 95 HOURS

J.H. Symington and T. H. Behrens
Had terrible Experience While
Out Hunting

BOTH DELIRIOUS WHEN FOUND

Former Brainerdite and Companion
Were Four Days on Floating
Bog in Aitkin County

Joseph Symington, of Duluth, form-
erly a resident of Brainerd, and now
a conductor on the Lake Superior
division of the Northern Pacific rail-
road had a narrow escape from
death. Symington, who is best known
among railroad men by his nick-
name of "Skibo," and a companion,
went hunting from McGregor last
Sunday and their boat capsized and
they were compelled to take refuge
on a floating bog where they staid
from Sunday to Friday morning be-
fore being found.

The Duluth Herald says that when
they were found they were too weak
to be taken to Duluth but it is ex-
pected that they will be taken home
this forenoon. They were to have
returned to Duluth Sunday night but
little uneasiness was felt until Tues-
day. When they did not return
then, searching parties were organ-
ized and they were found Friday
morning as stated above.

A railroad man who came through
McGregor last night states that both
Symington and his companion, T. H.
Behrens, a Duluth barber, were de-
lirious when found. They stood in
water up to their bodies for 95 hours
when found. They were unable to
even walk around as any movement
sank them deeper in the mire. When
discovered they told how men came
by them and spoke to them and "gave
them the highball," and went off and
left them. After they had had some-
thing to eat and a good sleep, their
minds were clearer but they will in-
deed be fortunate if they escape a
long sickness because of the ex-
posure. It is safe to say that they
will not want to go duck hunting
again this season.

Styles for Men

FALL & WINTER

We Announce the First Arrival of Fall and Winter Clothes for Men and Young Men

HERE is the beginning of a series of
somewhat out-of-the-ordinary talks
designed to promote our better ac-
quaintance.

About good clothes and good values, of course.

But they'll be two-sided enough to be of mutual
help and profit, you may depend upon it.

If we can only get into these talks some of the *real*
spirit and service of this store—the desire to build

our success upon your satisfaction, not at your
expense—our aim will be rewarded.

This is the store of Better Things—not only
better merchandise, but better service, better
accomplishment, better values as every season
goes by.

Along this line we're uncommonly glad to an-
nounce the first arrival of Fall and Winter *Better
Things* in Men's and Young Men's clothes from

The House of Kuppenheimer

You'll find them in strict keeping with our policy of the highest-grade merchandise in every line.

The styles are correct; in advance; the weaves are unusual in worth; the workmanship loyal and right.

Better come look them over if for no other reason than to set
yourself right on the correct styles and fabrics for Fall and
Winter.

We are showing the correct blocks of the lead-
ing Hatters in the new fall shades.

PLEASANT TRIP DOWN THE LAKES

Judge Holland Writes Entertainingly
of His Recent Trip to
Eastern Points

ST. LAWRENCE RAPIDS DESCRIBED

And Pleasant Experiences on the
Trip and at His Old Home
Are Related

(Continued from yesterday)

I took the cars and went down to
Montmorency Falls, on the Mont-
morency River which flows into the
St. Lawrence about seven miles be-
low Quebec. These Falls are claimed
to be 250 feet high. I returned to
Quebec and the next day I went down
to St. Anne de Beaupre. This is
quite a town and said to have been
built because the St. Anne de Beaupre
church is there. The village is twenty-
one miles down the bay from Que-
bec. In this church one sees hun-
dreds of crutches left there by the
afflicted when they were cured.

A day or two later, at eight o'clock
one morning, I took the steamer
"Murray Bay" and started for the
head waters of the Saguenay river.
The St. Lawrence river and the St.
Lawrence Bay meet at Quebec. We

went down the bay on the west side,
passed Montmorency Falls, St. Anne
de Beaupre, and in the early evening
reached the mouth of the Saguenay
river. At the mouth of the Saguenay
river the St. Lawrence bay is over
twenty miles in width. During the
day, while sailing along the west side
of the bay, or more accurately speak-
ing northwest, we had a good view
of the shores. The farms are nar-
row and long. One end faces the
bay and runs back onto the hill as
far as we could see. Along the bay
is the road. On the bay end of these
farms is a road and a house on each
farm, or on nearly all.

It looks like a street in a village
but very long. We went up the
Saguenay river during the night and
was at Chicoutimi in the morning.
The boat would remain there until
nine A. M. After breakfast I start-
ed out to see the town. As I was go-
ing off the boat I chanced to meet
the captain. "Captain, how long will
we be here," I asked. "We will not
leave before nine o'clock". It was
then about eight. With much dig-
nity I said, "Captain, I want to go
out to the last camp of Peary and
Cook, the nearest one to the pole.
Which way shall I go?" With dig-
nity he looked at me and said: "Hell!
Neither one of them ever got this
near to the pole."

HEARST ISSUES A STATEMENT

Accepts Nomination for Mayor of New York City.

IN OPPOSITION TO TAMMANY

Says He Will Support the Rest of the Fusion Ticket Whether or Not He Is a Candidate—Repudiates His Endorsement of Justice William J. Gaynor, the Democratic Nominee—Hearst's Conditions Accepted.

New York, Oct. 9.—After two days of silence William Randolph Hearst announced to a crowd of waiting constituents that he would accept an independent nomination for mayor of New York provided that his associates upon the city and county tickets be substantially Republican-fusion nominees as already selected. His statement outlining the conditions upon which he will accept is in part as follows:

"Whether I am a candidate or not I will support the rest of the fusion ticket nominated in opposition to Tammany Hall. When the Independence League committee withdrew from the fusion conference, it declared that it still stood ready to support a frank and honest expression of progressive principles and candidates, irrespective of party. This is your opportunity to substantiate that declaration. Nominate me if you so desire with the greater part of that fusion ticket behind me and I will run.

"The candidates nominated on the fusion ticket are worthy of support. The ticket is already in the field. If we nominate another ticket both tickets may be defeated. If we nominate the fusion ticket Tammany will be defeated. And if Tammany is defeated, the citizens will win."

Mr. Hearst goes on to say that he thinks his chances for election would be better on a straight independent ticket but that he was not considering his personal chances alone, but rather of the city at large. In other words he wishes the endorsement of the independents to enable him to head a ticket simply by displacing Otto T. Bannard, who has been nominated by the regular Republican party and endorsed by the so-called fusionists. In his statement Mr. Hearst repudiates his endorsement of Justice William J. Gaynor, the Democratic nominee, whom he announced several days ago he would support.

During the day, to insure a party name, legal steps were taken to register the "Civic Alliance," under which title Hearst will make the race if his requests are complied with. The choosing of this new name was made necessary in that Tammany is charged with absorbing the old Independence League machinery at the recent primaries.

Charles E. Gehring, organizer of the new Civic Alliance and members of its executive committee voted to accept the conditions as laid down by Hearst. Gehring announced that he would begin the circulation of nominating petitions at once.

LONG DROUTH IS BROKEN

Much Needed Rain Falls in the Southwest.

Kansas City, Oct. 9.—A drouth which has extended throughout a large part of the Southwest for the last two months was broken by a heavy rain.

In Kansas, Arkansas and Oklahoma the drouth was especially severe. Much suffering and crop damage had resulted. In Fayetteville, Ark., the water works system failed and the few people fortunate enough to have wells sold water at high prices.

Farm work has been practically at a standstill. But little fall plowing has been done. Oil properties has also been idle, but work at the wells will now be resumed.

WANTED TO LYNCH A NEGRO

Mob of Colored Men Tried to Take Him From the Sheriff.

Tulsa, Okla., Oct. 9.—Fifteen negroes boarded a train at Wybark and attempted to take Arthur Mann, a negro charged with horse stealing, away from Sheriff Hooper with the intention of lynching him.

Sheriff Hooper held the crowd at bay with his revolver until the train started and then, with the assistance of the conductor, forced the entire mob to jump from the moving cars. Wybark has no white citizens.

CONDITIONS ARE ADVERSE

But Glenn H. Curtiss Makes a Successful Flight.

St. Louis, Oct. 9.—Under adverse conditions, Glenn H. Curtiss, by a flight in his biplane in Forest park received the applause and cheers of the many thousands of persons who had waited for hours for the wind to slacken. George Francois Osment and Hugh A. Robinson of St. Louis attempted to make their machines fly and failed.

Osment, after Curtiss had made his successful flight, tried a second time and his machine was damaged by striking the ground, but he was uninjured.

Curtiss, just after dusk, wheeled his machine out of its tent and, facing a fifteen-mile wind, started his propeller, rose thirty feet from the ground, and flew the length of the aero field. He covered a quarter of a mile and was aloft forty-five seconds. His landing was beautiful.

With a short run on the ground the noted aviator caused his machine to rise bird-like. The biplane rose and fell gracefully with the different air currents and the outline of the craft in the sky brought forth many cheers. He did not attempt to make a turn, but contented himself with bringing the machine to the ground at the feet of thousands who stood at the east end of the field.

Early in the morning in the presence of the members of the Aero club he remained in the air a minute and a half and sailed three-quarters of a mile against a wind whose velocity was five miles an hour.

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery" for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts. Dr. J. C. Ayer, of Lowell, Mass., writes: "I have used this medicine for many years, and I can recommend it as the very best remedy for the diseases for which 'Golden Medical Discovery' is advised."

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed free to any one asking for it by postal card, or letter addressed to the Doctor at the above address. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompanied with catarrhal discharges, hoarseness, sore throat, lingering, long-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will cure the affections that lead up to consumption, if taken in time.

Money Comes in Bunches

To A. A. Chisholm, of Treadwell, N. Y., now. His reason is well worth reading. Then used Electric Bitters. Twelve bottles restored my old-time health and vigor. Now I can attend to business every day. It's wonderful medicine." Kidney Suffering

Backaches and tired feelings tell of weak kidney action—Prompt relief by using DR. A. W. CHASE'S KIDNEY AND LIVER PILLS

There is no treatment for kidney disease which will afford you relief so quickly as Dr. A. W. Chase's Kidney and Liver Pills, and none which will so certainly cure the most complicated forms of this disease.

There is a reason for this. Dr. A. W. Chase's Kidney and Liver Pills awaken the action of the liver and bowels as well as the kidneys and thereby effect a thorough cleansing and regulating of the whole excretory system.

Mr. J. H. Ingersoll, Stearns, Montana, writes: "We keep Dr. A. W. Chase's Kidney and Liver Pills constantly on hand for use in the family, and find them the best medicine we ever used for lame back, soreness in the back and all kidney troubles, including constipation. Several of our neighbors have used them on our recommendation with very satisfactory results."
